Big Game Hunt

March - July

Provinces of Buenos Aires or la Pampa

The famous Argentinian pampa has few autochthonous species which are mainly forbidden for hunt (some cervidae species). There are imported animals instead as for example European Deer, Wild Boar, Black Antelope and Axis Deer, which are very interesting to hunting.

The hunting reserves are private, some of them very good for hunting autochthon animals as well as Puma.

The hunt is done in the classical manner by stalking the animals or with dogs or at a night bait, which is the case for the Puma hunt.

The accomodation is always in modest hotels near the hunting area.

Rates:

5 hunting days 2x1 including trophy fee Of one black antelope and one Axis deer (Buenos Airse province)	USD 6.300
5 hunting days 2x1 including trophy fee of one deer and one wild boar (General Acha province, only in March)	USD 7.900
5 hunting days 1x1 including trophy fee of one Father David Deer, Neuken province in open area	USD 11.000
Supplement 1x1	USD 700
