Stone Sheep

August 1– October 15

The hunting areas that we're offering you are situated in the most remote part of Canada where the nature is still absolutely intact. We're talking Big North here in the true meaning of the word. Hunting is done in the mountains, on foot or on horseback, where possible. Accommodation is in tents or cabins for some hunts. Medium or good physical preparation is required as well as equipment for the rainy

weather and high mountains.

We're offering various hunting combinations with the all-included formula, with the best outfitter in the area.
