Maral in Moscow

September – January

The hunting that we propose for Maral deer hunt is a hunting reserve close to Moscow (120km). This is a fenced reserve where Maral deer have been brought directly from Altay. There is the possibility to harvest very large trophies, of more than 15kg, especially in the roaring season in September. The hunt is done from blinds or by stalking, depending on the period and of the requests of the hunter. Lodging is provided in the comfortable hunting

house at the spot.
