## - TANZANIA -

### Big Safaris

July - December

We organize this classical 21 days safari in the largest game reserve in the world, Selous game reserve in Tanzania. This immense area, larger than some European countries, is located in the central part of Tanzania and it has no human settlements in its interior. The density of animals is high and comparable to many national parks in Africa.

This is a safari for the big four, with the possibility to choose between hunting lion, leopard, elephant and up to 3 buffalo, besides many antelope species such as Sable, Eland, Kudu and others.

For this hunt we are contracting some of the best professional hunters on the market. Lodging is provided in tented camps with excellent meals.

### Rates:

21 hunting days 1x1

USD 45.900

Lion USD 15.000 + Trophy fee  
Leopard USD 10.000 + Trophy fee

**Baiting:** For the best outcome of your hunt we can send your professional hunter one week before your arrival to set up the baits, so that you will have greater possibilities to find lion or leopard already feeding upon your arrival. This additional service costs USD 5.000 plus the trophy fees of the animals that will be used as bait and that will be part of the animals in the license (buffalo, zebra, hartebeest).
