### **2 Buffalo Special**

**July - December**

This year we can offer you a series of programs for buffalo hunts in Tanzania never seen before on the market, due to the fact that we have taken in management a concession in the Selous and other area where we organize hunting. This concession concentrates a great number of buffalo from mid September to December. This is a remote area, covered in mountains and hunting is done mainly on foot with the possibility to obtain large trophies.

Our professional hunters will be at your disposal throughout the season. In order to facilitate arriving to the hunting area we have contracted a charter company with two planes, one with three seats plus the pilot, that we use for flying in two hunters and their luggage and one Caravan with 12 seats for larger groups.
