Concessions

May - December

We're offering you the opportunity to hunt in various hunting concessions in Zimbabwe with best local outfitters. Despite its political problems in the past years Zimbabwe remains one of the best hunting destinations in Africa. The problem consists in choosing reliable, non improvised, outfitters, who have been acknowledged on the market for a long time and we have chosen those for you.

Accommodation and organization of the hunt are the best in all Zimbabwe.

Important:

- Our representative areas are operated based on a rigid quota system and they cannot provide all species for every client. Please make sure that the specie you wish to hunt is available when booking your safari.
- "Safari Air Services" operates mainly in the lower Zambezi Valley, but they have access to other primary concessions as well which are numerous in Zimbabwe, so that they are in position to offer the vast number of species indicated above. When booking your safari inform yourself where the specie you wish to hunt is available and of the costs of transfer to another area if necessary.
